"Kill! Kill! Kill! Let us show them who is the natural elite! Who is the greatest killer! White man! Unsheath your terrible sword! Slay your enemies!"

Hallelujah! baby! It's the R-revolution . . .

There was blood on Main Street. It gushed out of the ghettos where "the streets were running with alcohol and blood." For "the vicious ones among the Negroes and Puerto Ricans" had revolted; they had begun the "Takeover" so long feared. Wrote one eyewitness: "Always in all great cities there is at the bottom of society a savage, vile mob which breaks out to rape, murder and loot whenever it can. There's a big fire up Harlem way and the mob is slowly moving southward in front of it, dancing and singing as it goes." Suburbia was revolting too. There was guerrilla warfare in all

Mike Newberry is author of *"The Yahoos"* (Marzani & Munsell), a study of the American Rightwing; *"Goldwaterism"* (Marzani & Munsell); and *"The Fascist Revival"* (New Century).

Prophecies of Things-To-Come or a grim fairytale of Rightwing fears? Who wrote this thriller? Who published it? Who read it? This tale of political science fiction was told in a doomsday book titled *The John Franklin Letters*, issued anonymously in 1959. Its bashful authors were former CIA agents. So was its publisher, Lyle Munson, president of The Bookmailer, who had recently resigned from the CIA to devote himself to merchandising Birchite literature, and who was described by Robert Welch, in his *Blue Book of the John Birch Society*, as "a good friend of mine." His "good friend," Welch said, had made "arrangements" to publish the books needed to stock the reading rooms of the Society. And *The John Franklin Letters* was one of the first books so published.
